

## Partner Commitments in Chesapeake Bay Watershed Agreement Work Plans (April 29, 2016)

The table below reflects for each Chesapeake Bay Program (CBP) signatory partner: **(1) their commitment to participate in implementation of specific management strategies (MS)** between now and 2025 (left column for each partner, marked “MS”); and **(2) those MS work plans in which they have specific commitments during the two-year period 2016-2017** (right column, marked “WP”). Note: the absence of a checkmark (✓) for a work plan means only that specific commitments were not identified for the 2016-2017 workplans; commitments may be added during this period or may be included in future biennial workplans. As recognized in the 2014 Chesapeake Bay Watershed Agreement, participation in Management Strategies and Work Plans, or participating in the achievement of Outcomes, is expected to vary by signatory based on differing priorities across the watershed. This participation may include sharing knowledge, data or information, educating citizens or members, working on future legislation and developing or implementing programs or practices.
