

Chesapeake Bay Program
Science. Restoration. Partnership.

Management Board

June 11, 2020

Actions/Decisions

Nutrient and Sediment Trends for the Chesapeake Bay Watershed

- Doug Moyer and Scott Phillips (USGS) presented an update for 2018 of the nitrogen and phosphorus loads for the Chesapeake Bay Watershed. Additional comments or questions may be sent to the presenters at dlmoyer@usgs.gov and swphilli@usgs.gov.

Logic and Action Plans and Management Strategies

- **Decision:** The Management Board (MB) accepted as complete the Citizen Stewardship, Diversity, Public Access and Submerged Aquatic Vegetation (SAV) Logic and Actions Plans, as well as the updated Diversity and SAV Management Strategies. The MB accepted a minor change to the SAV management materials to include Virginia Coastal Zone Management as a listed partner.

SRS Wrap-Up and Follow-Up Actions

- **Action:** Some MB jurisdiction members reported their contacts for both their state natural resource and education agencies at the Division Director or higher level. MB jurisdiction members and others may submit additional contacts to Shannon Sprague (NOAA) at shannon.sprague@noaa.gov.
- **Action:** Shannon Sprague will draft a funding related action item for MB members to work on with their counterparts and respond to by July 2, 2020.

2014 Chesapeake Watershed Agreement as Amended

- **Action:** The MB approved the approach for displaying the amendments within the *2014 Chesapeake Watershed Agreement*. The Enhance Partnering, Leadership and Management Goal Implementation Team (GIT 6) will address minor editorial suggestions and post the amended document to the Chesapeake Bay Program website.

Business Meeting

- **Note:** The Habitat Goal Implementation Team, Stream Health Workgroup and Wetland Workgroup are seeking nominations for new co-chairs. Position descriptions may be found on the June 11 MB [meeting page](#). MB members are encouraged to submit nominations prior to August 13, 2020.

Attendance

MB Roll Call 6-11-20

Member	Representing
