Citizen Stewardship in the Chesapeake Bay Watershed (2017)

To earn a score of 100, everyone in the region would need to do everything they could in their daily lives to improve water quality and environmental health, including personal actions, volunteering and advocating for the environment.

Personal Stewardship, Volunteerism and Civic Engagement in the Chesapeake Bay Watershed (2017)

These three scores are aggregated to inform the Citizen Stewardship Index.

Maximum Stewardship Potential: 100

Levels of Involvement

Inform: One way street, told what's happening

Ask: Give options; gives information to help others make decisions; provides feedback

Consult: Provides feedback; approach seeking approval; option to get involved

Participate: Bought-in; help strategize and/or promote

Collaborate: Shares ownership of project; formal role; allows others to take a leadership role
